### THE GREAT COUNTER IRRITANT

The virus of disease often makes its way to the internal organs through the pores of the skin. It enters the system by rubbing in, as absorbed through the same pores, and, reaching the spot of inflammation, promotes it and invariably subdues it, whether located in the skin or in any of the internal organs. It is the great counter irritant. It penetrates the surface to the interior, through the countless tubes that communicate with the system, as suction tubes, and the pores of earth, diffusing its cool and regenerating influence.

### Skin Diseases and Glandular Swelling

Every species of interior irritation is quickly reduced by the anti-inflammatory action of this Ointment. It is the great counter irritant in all cases of ERYTHELMA, TETTER, RINGWORM, SCALD HEAD, NETTLE RASH, SCABIES (or ITCH) and all other eruptions of the skin. It is the great counter irritant in all cases of GONORRHOEA, HEMORRHOID, and all other diseases of the internal organs.

its inflexibility in disease of the joint, the muscles, the joints, and the glands.

**SCROFULA AND TUBERCLES.**

The effect of this universal antientremy upon Scrofula, and other virulent ulcers and sores, is as most miraculous. It first discharges the poison, and then supports the system, and restores the blood, so that the sores which it has brought properties after them complete are safe as well as permanent.

**Wounds, Bruises, Burns and Sores.**

It is the fracture of the bone, the contusion, the injury caused by a kick, explosion, or fall, the contraction of Rheumatism, Stiffness of the Joints, and inflammation of the sinews, it is employed and warmly recommended in all the above cases, and has been introduced by its inventor in person into all the leading Hospitals of Europe, and to private practice.

HEALTH OR SICKNESS.

CHOOSE BETWEEN THEM.

HOLLOWAY'S PILLS.

THE blood furnishes the material of every bone, muscle, and fibre in the human frame. When pure, it serves health in every organ; when corrupted, it necessarily produces disease. HOLLOWAY'S PILLS operate directly upon the elements of the system of life, neutralizing the principle of disease, and thus radically curing the malady, whether located in the nerves, the stomach, the liver, the lungs, the spleen, the skin, the brain, or

any other part of the system.

**Used throughout the World!**

HOLLOWAY'S PILLS are equally efficacious in complaints common to the whole human race, and in disorders peculiar to certain climates and localities.

**ALARMING DISORDERS.**

Dyspepsia, and derangement of the liver, the source of infirmity and suffering, and the cause of

innumerable deaths, yield to these cursives, in all cases, however aggravated, acting as a mild purgative, alterative and tonic, and to remove the bursae, purify the blood, and invigorate the system and its constitution at the same time.

**General Weakness—Nervous Complaints.**

When all stimulants fail, the rancorizing and bracing properties of these Pills give firmness to the shaking nerves and enfeebled muscles of the victim of gonorrhea.

**Delicate Females.**

All irregularities and ailments incident to the female sex, and arising from the system, are removed or prevented by a few doses of these mild but infallible alteratives. No mother who regards her own or her children's health should fail to have them within her reach.

**SCIENTIFIC ENDORSEMENTS.**

**SOUTHWEHD, February 22d, 1856.**

**M<sup>r</sup>. PARKER, ST. THOMAS—A YOUNG AGENT**  
Dr. Halsey's Force and Wind Pills, I feel bound to say, have done me more good than any other medicine I ever gave. I have been afflicted with the biliousness of the liver, and the inflammation of the lungs in February, 1855. I was then living seventy miles from home. I received your saying, "I will send you some pills," and I came immediately. I nabbed my horse and rode down, and found my son and, he, my wife, and the doctor, all waiting for me. I was very ill, but the doctor said I would be death to remain here. After leaving him nine weeks in this wretched condition, I succeeded in bringing him home, and he is now as well as I. I am now the best physician in these parts, my wife, after soundly curing her, pronounced his lungs badly diseased. He is now a member of the church, and has sold his horse and taken six bottles without the least benefit, and

during all this time he asked large quantities of  
 blood, and he was able to keep it up for a  
 day. It became as weak that he could neither  
 dress nor undress, and all who saw him, said,  
 "There is no use to doctor, as he would not recover."  
 His friends, however, were not so easily dis-  
 sipated, and they procured, but it failed to do him  
 any good. "Ah," said my neighbors, "he is use-  
 less." His friends, however, recommended my Father  
 and wife of Pella. Without delay I hastened to  
 your store, and procured a bottle of the Forsyte  
 medicine. I gave it to him, and he took it, and  
 some that night, and to use his own words,  
 "The next morning I think this medicine will do  
 me good." He was able to get up, and he said  
 that he felt better. He ate more breakfast than he  
 had at any time since that first fall, and, from that time  
 he began to get really strong. He was able to  
 walk, and he was able to use the Wine, he was perfectly  
 cured. He has now been at work for more than a  
 year, and is hearty and well.
